

Wireless Outlet Switch + Dimmer Control4® Suite Systems

The Control4® Wireless Switch and the Control4 Wireless Dimmer make total room automation a reality, without requiring additional wiring for plug-in devices.

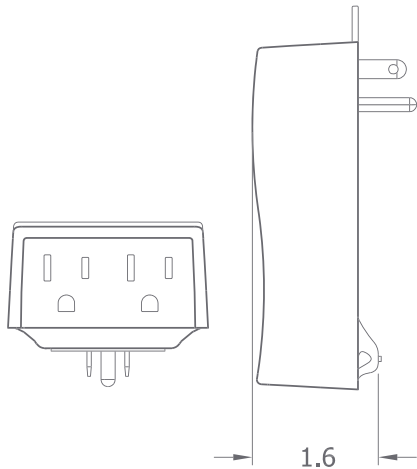

The Control4® Wireless Outlet Dimmers and Switches are a smart, affordable way to integrate plug-in devices like lamps and televisions into a hotel building and room management system. Ideal for new construction and for existing properties, the Wireless Outlet Dimmers and Switches are extremely easy to install and are conveniently controlled from keypads, remotes, touch screens or the television interface.

Your guests will be able to easily control the plug-in devices in their room from the same interfaces that manage audio, video, lighting and temperature.

Control4® Wireless Outlet Dimmers and Switches give your property the ability to meet energy building standards while delivering an unprecedented guest experience, by allowing you control over devices that were previously not part of a room automation solution. With Control4 Wireless Outlet Dimmers and Switches, you are able to maximize energy savings, and enhance guest comfort and convenience.

- Small size and low profile fits behind most furniture
- With two outlets per unit the dimmer and switch offer independent control of two devices
- Communicates wirelessly via the ZigBee® standard
- Compatible with Standard plugins
- FC, UL, CE and RoHs certified

Wireless Outlet Switch + Dimmer Control4[®] Suite Systems

Technical Specifications

Power Requirements

- Power Requirements: 120 VAC, 50/60 Hz, 1.7 W
- Power sensing range: 690 mA
- Power sensing resolution: 52 mA (5W)

Communications

- Wireless ZigBee (802.15.4) mesh networking

Environmental

- Operational 0°C to 40°C
- Humidity 5% to 95% Non-Condensing
- Storage -20° C to 70°C

Dimensions

- H x W x D: 4.5" x 2.6" x 1.6" (115mm x 67mm x 42mm)
- Weight: 8 oz (227 g)

Available Colors

- White
