Control4® Suite Systems

The Control4® Dock for iPod is a smart, affordable way to allow guests to access and enjoy their personal music collection in an automated guestroom. Ideal for new construction and for existing properties, the Dock for iPod features a sleek, tabletop design that can be easily integrated into any Control4 guest room.

The Dock for iPod allows guests to access their iPods, navigate playlists, view album cover art and enjoy their music using any Control4 touch screen or TV interface. The Dock for iPod can be controlled from any area in the room or suite, and conveniently charges iPods when they are docked. Guests will not only appreciate fuller, richer sound but will enjoy the personal experience of having complete and convenient access to their music library throughout their stay.

Guests can easily access iPods, navigate playlists, view music cover art, and manage their music from any Control4 on-screen or touch-screen interface

Made for iPod

• Sleek tabletop design integrates easily into any Control4 guestroom
• IP based connections via standard Ethernet allow fast, accurate two-way communications with the central room controller
• Easy to install, set up and personalize in new or existing properties

Control4 Suite Systems
