

Tapcon® Condrive Tool Kit

Installation Tool Kit

DESCRIPTION/SUGGESTED SPECIFICATIONS

Condrive 1000 Installation Tool— SPECIFIED FOR ANCHORAGE INTO CONCRETE, BRICK OR BLOCK

Part No. C1000
(Does not include drill bit)

The key to Tapcon's fast and easy installation is the multi-purpose Condrive Installation Tool. The drive sleeve, along with the hex head and Phillips sockets provide the installer with the flexibility necessary for the complete variety of Tapcon applications.

ADVANTAGES

- Fast change from drilling to driving
- Eliminates need to change out chucks and bits
- Eliminates need for two tools
- Special nut driver is recessed for torque control to reduce head breakage
- Includes bits for all sizes hex and Phillips head

APPLICATIONS

The picture shows the Condrive 1000 Installation Kit in action. The kit makes for fast and easy change over from drill bit to driver and controls the driving torque to prevent thread stripping and head snapping in hard base materials.

Tapcon Starter Kit

- Starter Kit**
