

Don't be afraid...Our Monster is freight-friendly!

Escape from damage nightmares...

Kemlite
**Monster
Scuff**™

AVAILABLE IN THICKNESSES OF
0.240" AND 0.175"

Kemlite Monster Scuff—the Thickest Fiberglass Panel Available in the Industry.

- Extremely tough, hard, and impact resistant—dimensionally stable in all environments.
- Exhibits a high strength-to-weight ratio and has an expansion/contraction value similar to aluminum.
- Provides greater protection against dents and tears.
- Available up to 72" wide and 300' long. Heavy-duty thickness allows for counter sinking fasteners.
- Specifically engineered for use as a scuffplate for refrigerated and dry van trailers, containers, and rail cars.
- Offers better bondability than other scuffplate materials.
