

ARDEX TL 1000™ Self-Leveling Underlayment

Underlayment with re-dispersible synthetic polymers designed specifically for fast leveling of floors prior to installing tile.

Product Capabilities:

ARDEX TL 1000 is a self-leveling Portland cement-based underlayment with re-dispersible synthetic polymers designed specifically for fast leveling of floors prior to installing tile. Use to level and smooth interior concrete, terrazzo, ceramic tile substrates and wood subfloors - on, above, or below grade. Pourable or pumpable when mixed with water. Seeks its own level and produces a smooth, flat, hard surface. Hardens quickly and dries fast without shrinking, cracking, or spalling. Walkable in 3 hours, most tile installations can proceed in 6 to 8 hours, and other floor covering installations can proceed in 1 to 3 days.

Benefits:

- Self-leveling flooring underlayment
- Portland cement-based
- Designed specifically for fast leveling of floors prior to installing tile
- Smooth new or existing concrete, terrazzo, or ceramic tile substrates
- Install up to 1-1/4"
- Walk on in 3 hours
- Install tile after 6-8 hours
