

Installation in 3 steps:

Internal corners

Simplicity and ergonomics

Fitting the cove former and 38 mm cove formers

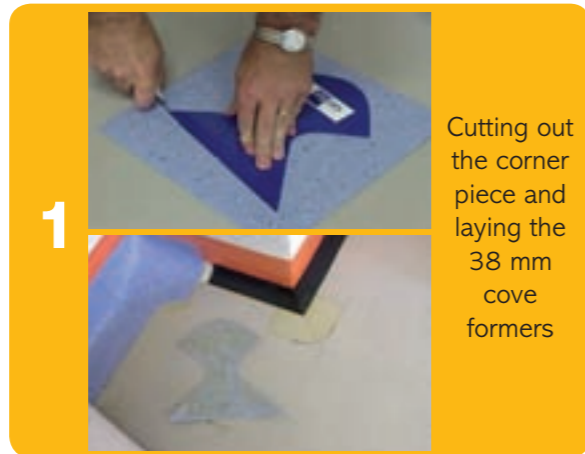

Cutting out and fitting the corner piece

Finishing

External angles

Adaptability

Cutting out the corner piece and laying the 38 mm cove formers

Fitting the corner piece

Finishing

Training:

The **TARAFIT™ corner system** is accessible to floor laying companies who have been trained by the Gerflor technical department*.

The training workshop includes:

- Teaching of **TARAFIT™ corner system** installation techniques
- Issuing of a user licence for GERFLOR floor coverings.
- Issuing of a qualification diploma to trainees.
- Supply of cut out templates and forming press for external angles.
- Supply of DVD and **TARAFIT™** implementation process plan.

* or any other training organisation authorised by Gerflor.

Available technical tools

- TARAFIT™ corner system video upon request
- Detailed TARAFIT™ installation process plan available at the end of the training workshop.

Tarafit™:

an innovative corner system

- **Unique corner system which makes cleaning more efficient and hygienic**

- The TARAFIT™ corner system is an installation technique for internal and external angles which uses a specially cut piece of flooring to obviate the need for corner welding.

A patented system

The **TARAFIT™ corner system** which is the only one of its kind in the world, is patented for use with GERFLOR PVC floor coverings.

Designed to meet the exacting requirements of end user clients

The **TARAFIT™ corner system** has been tested and recommended by some of the largest pharmaceutical laboratories.

It is designed to fully meet hygiene and microbial decontamination recommendations specified in G.M.P. (Good Manufacturing Practice) practical guides.

The advantages of the system...

- ✓ **Easy to clean and decontaminate**
Tight, inaccessible corners do no longer exist
- ✓ **Smooth and durable**
No more vulnerable corner welds
- ✓ **Attractive and uniform finish**
Quality results
- ✓ **Consistency**
All corners are handled in the same way

Our customers testify...

« **The Tarafit™ corner system makes rooms very aesthetic and easy to clean. What's more, this system allows facilities to be converted to Clean Rooms.** »

Mr Jocelyn Milliat, Head of operations at Biomerieux La Balme: international group specialised in in vitro diagnostics for medical and industrial applications.

« **The Tarafit™ system allows cleaning and decontamination to be improved, the appearance and strength of the welding is reinforced. What's more, this system is a positive development in the control of bio contamination.** »

Mrs Hélène Chauvin, Head of operations at Auberger-Favre: Thermal environmental engineering Design Office.

« **This system provides good results in terms of appearance and strength of welding, it is also easy to install. It's a great invention!** »

Mr Fabien Boutron, Comptoir des revêtements: floor laying company.
