

ARDEX V 1200 Self-Leveling Flooring Underlayment

ARDEX V 1200 is a self-leveling, no-troweling Portland cement-based underlayment with re-dispersible synthetic polymers.

Product Capabilities:

Use to level and smooth interior concrete, terrazzo, and ceramic tile substrates -on, above, or below grade. Pourable or pumpable when mixed with water. Seeks its own level and produces a smooth, flat, hard surface. Hardens quickly and dries fast with low shrinkage to minimize cracking or spalling. Walkable in 3 hours, and most floor covering installations can proceed in 1 to 3 days.

Benefits:

- Portland cement-based
- Smooth new or existing concrete
- Use over concrete, ceramic tile, terrazzo and adhesive residues
- Walk on in 3 hours
- Highly resistant to shrinkage cracking
- Install up to 1 1/4", can be tapered to meet existing elevations
- Accepts most floor coverings in 1-3 days
