Choose the best selling translucent roof on the road!

Kemlite

ETR[®]

Translucent Roof Panels

KEMLITE ENHANCED TEAR RESISTANCE TRANSLUCENT ROOF PANELS IMPROVE VISIBILITY WITHOUT SACRIFICING STRENGTH.

Kemlite ETR vs. Aluminum—the choice is clear.

- Available in an .075" (1.9mm) thickness and a light transmission of 30% or 10%.
- The more visible the cargo and its labeling, the faster it unloads.
- When forklift drivers can see where they're going, they're less likely to cause damage.
- LumaShield™ Surface film and UV inhibitors in the formulation provide excellent protection against solar radiation.
- The engineered fabric in the ETR panel provides an "Enhanced Tear Resistance" that exceeds all other translucent roof panels.
- Can be repaired faster and more effectively than aluminum.
- Provides price stability vs. aluminum.
- Backed by a 5-year warranty.
