

## ARDEX S 16™ Fast Setting Thin Set Mortar for Marble Tile

A non-staining, self-drying adhesive specially formulated for moisture sensitive ceramic and natural stone tiles.

### Product Capabilities:

Non-staining, self-drying, Portland cement-based thin set mortar for setting of floor and wall tiles in indoor applications. Due to its exclusive self-drying Portland cement-based matrix and fast setting properties, ARDEX S 16 will not contribute moisture to the tile making it particularly suited for use with moisture sensitive stones such as marble, granite, limestone, etc. Tiles may be grouted after only 2 hours (at 70°F).

### Benefits:

- Portland cement-based thin set mortar in accordance with ANSI A118.4
- Specially formulated for moisture-sensitive stone
- Ideal for all sizes of gauged tiles
- Self-drying, will not contribute to staining
- Fast setting, grout in just two hours
- Excellent non-sag properties
- Use for interior floors and walls
