

## Pluggers Products

Pluggers products feature a receptacle to accept a 120/230V pump plug and/or a piggy-back plug for typical pumping station applications.

- Single Phase Simplex (RP)
- JB Pluggers System
- PS Patrol® Alarm System

### Model RP Single Phase Simplex

- Provides a reliable means of controlling one 120/208/240V single phase pump; features a receptacle to accept a 120/230V pump plug and/or a piggy-back pump switch.
- NEMA 4X enclosure.
- Plug-in pump switch control.
- UL/cUL Listed.

### JB Pluggers System

- Easy-to-install junction box which provides a convenient location to connect all wiring required for pump station applications; features a receptacle to accept a 120/230V pump plug and/or a piggy-back pump switch.
- NEMA 4X enclosure, hinged door.
- UL/cUL Listed.

### PS Patrol® Alarm System

- **No more junction boxes or messy wiring!** The PS Patrol® alarm system features a built-in high water alarm and provides a convenient location to connect all wiring in pump station applications; features a receptacle to accept a 120/230V pump plug and/or a piggy-back pump switch.
- Pedestal rated for outdoor use.
- Pull out assembly for easy wiring.
- Control switch provides alarm activation.
- Vent holes help prevent moisture condensation inside the post.
- 120V, 230V, 9VDC, and PSAB models available.
- CSA Certified.

### Order Factory-Installed Options!

- Factory-installed **Circuit Breaker and Terminal Block** option allows faster, cleaner installations using only half the materials to save you money!
- Factory-installed **Elapsed Time Meter** option allows you to log pump run information for code compliance.
- Factory-installed **Duo Alarm** option monitors 2 level conditions: high water alarm and alarm 2 (filter) for code compliance.

## Water Well Control Panel

With duplex alternation between two wells, this system provides override control to **maintain system pressure** upon high demand or should either pump fail in water well applications.

- Single Phase Duplex (126)

### Model 126 Single Phase Duplex

- Designed to alternately control two 120/208/240V single phase pumps in water well applications; provides override control to maintain pressure.
- NEMA 1 or NEMA 4X enclosure.
- Available with contactors or without contactors.
- UL/cUL Listed.
