

INNOVATIONS FOR LIVING®

Berkshire® Collection

Berkshire® Sherwood Beige†

Choose beauty...

Home sweet home.

It's the place where you want to feel the most comfortable. Safe. Protected. But no matter how much you love your house, it seems the work is never completely done. And if purchasing a new roof is on your to-do list, it may seem like a daunting task.

Above all else, your new roof should protect you and your family from the elements. It must deliver the performance that creates the peace of mind you deserve. Yes, it's a big decision.

But you don't have to worry about it anymore. We're here to help.

Owens Corning and your contractor can make this a positive experience—an opportunity, really. This is your chance to choose a roof that not only has outstanding performance, but also has exceptional beauty. One that can transform the look of your entire home. So for years to come, you'll feel great every time you pull in the driveway.

Safe. Protected. Home.

ABOVE ALL ELSE

...enjoy performance too.

INNOVATIONS FOR LIVING®

A brand built on trust.

When it comes to an investment like a new roof, you of course want a good value for your money. You can feel confident about choosing our roofing products—Owens Corning has been a recognized leader in the building materials industry for over 65 years. We're known for making homes more comfortable, beautiful and durable. And it's likely you've invited our mascot, The Pink Panther™, into your home already—our building products and famous PINK Insulation have been used in millions of homes across the country.

A job well done.

Part of the peace of mind that comes with a new roof is the knowledge that it was installed properly. So it's smart to hire a professional roofing contractor who offers proven experience and a written estimate. It's a good idea to shop around—see what a few different contractors have to offer in terms of their experience and referrals, as well as in their approach to installation and pricing.

As you weigh your contractor options, consider using an Owens Corning Preferred Contractor—an independent contractor who has been accepted into our network because they meet our strict program criteria. For names in your area, call 1-800-GET-PINK™ or visit www.owenscorning.com.

PEACE OF MIND

Your peak performance system.

It takes more than just shingles to create a high-performance roof. It requires a system of products working together. The Owens Corning Roofing System is a lineup of key products that can help provide maximum durability for your roof. And the most protection for your home.

- a. VentSure® Ventilation Products.** Help protect your roof from moisture damage, such as warping and cracked shingles, by releasing heat from the attic.
- b. Berkshire® Hip & Ridge Shingles.** An attractive way to help protect your ridge vents so they can better do the job of preventing moisture damage to your roof deck.
- c. WeatherLock® Waterproofing Underlayment Products.** Help guard vulnerable areas where water can do the most damage to your roof: eaves, valleys, dormers and skylights.
- d. Owens Corning Shingles.** Add durable beauty to your home. Your shingles are your first line of defense against the elements.
- e. Owens Corning Starter Shingle Roll.** The first step in the proper installation of shingles.
- f. Owens Corning Undereave Ventilation Products.** Help prevent moisture buildup in your attic by working with ridge vents to keep air moving.

Roofing

Choose a shingle with granules that play up the accent colors on your exterior. Also consider how the shingles' shadowing can add dimension to your roof.

Berkshire® Sherwood Beige'

Cultured Stone® Veneer

The colors and textures of the brick or stone on your home's exterior can also influence your shingle choice. Balance these strong accents with the color and dimension of your shingles.

Bucks County Country LedgeStone'

Trim

For a striking look, consider a shingle with coloring similar to the boldest exterior trim colors on your home.

Seeing is believing.

What if? Explore the possibilities of potential new looks for your entire exterior using the power of Exterior FX® design visualization software. Your Owens Corning Preferred Contractor can show you how different shingles, siding—even Cultured Stone® manufactured stone veneer—could look on your own home.

To experiment for yourself, visit www.owenscorning.com to use a version of Exterior FX® design visualization software that will display how different shingles look on a home with a style similar to yours.

Design a look you'll love.

This is going to be a beautiful decision. Shopping for new shingles is the perfect opportunity to increase the curb appeal of your entire home. Your roof can make up more than half of your home's exterior, so it should complement your home's style and exterior color scheme.

As you browse your shingle choices, think about how the look of your new roof could improve upon the roof you have now.

- **Should you choose a different color?** Consider the look of your home's exterior. A new shingle color could bring your look together. Or even inspire a new palette.
- **Have you seen the granules?** Owens Corning shingles get their rich color from a combination of colored granules. Using the colors of these granules, you can coordinate all of your home's exterior elements—the paint, siding, brick or stone.
- **Do you need more dimension?** If your home's exterior is monochromatic, think about adding shingles that appear thicker and give your roof a rich, textured look. For homes that already have a detailed exterior, you could choose softer, more muted shingles. Owens Corning offers a variety of roofing shingles that carry a unique combination of these characteristics.

Berkshire® New Bedford Bronze†

Berkshire® Collection

Discover the difference that Berkshire® Collection shingles can make. With a thickness, proportion and color selection reminiscent of natural slate, these shingles make a unique, elegant statement. And the *Berkshire* Collection proves it's as solid as it looks with a Limited Lifetime Warranty* and 110-MPH Wind Resistance Warranty, plus our Algae Resistance Limited Warranty.

* See actual warranty for complete details, limitations and requirements.
 ** Applies for all areas that recognize Metro Dade County Building Code.
 † Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Color availability subject to change without notice. Ask your professional roofing contractor for samples of colors available in your area. The Cultured Stone® product colors you see are as accurate as current photography and printing techniques allow. We suggest you look at product samples before you select colors.
