STAINLESS STEEL DRAINAGE SYSTEMS

BLÜCHER® Drain

Most reliable connections

BLÜCHER® offers the most complete product range of stainless steel drains and accessories in the market. Every detail of the BLÜCHER® Drain range is the result of careful design and extensive development work, based on technical know-how and 40 years' experience within drainage systems. In particular through three basic characteristics:

HYGIENIC

NON-COMBUSTIBLE

RECYCLABLE

Stainless steel lasts forever

Because of its corrosion and fire resistant properties, as well as its hygienic and environmental advantages, stainless steel is the material of choice for BLÜCHER® Drain.

Stainless steel is 100% recyclable, non-toxic, and its smooth surface guarantees maximum flow capacity and the best hygiene.

Standard and customized products

The BLÜCHER® Drain program includes a complete range of drains suitable for all applications from light to heavy duty. Available in acid-resistant AISI 316L or regular AISI 304 stainless steel.

A wide selection of gratings and accessories suit most any commercial, industrial, or cosmetic residential application.

On our website you will find the complete BLÜCHER® Drain product program as well as selected references and applications.

Customized drains and accessories are available on request.

Freedom of choice

Uniquely constructed range of stainless steel floor drains with more than 1000 possible configurations provide a solution for any floor drainage project.

BLÜCHER® Drain Commercial/Industrial

Commercial/Industrial floor drains to meet the strictest sanitary and hygienic requirements:

- No burrs or sharp edges
- No corners or cavities inside
- Gratings for any load class
- Hygienic backfilled frame edge
- Sediment basket and sand bucket to catch debris
- Accessories for all commercial and industrial applications

Fulfills any Drainage need

The BLÜCHER® Drain range fulfills any indoor drainage requirement.

Commercial

The excellent hygienic properties with smooth surfaces preventing bacterial growth and blockages combined with the easy maintenance and non-smelling solutions make BLÜCHER® Drain the preferred drain in projects around the world. Hospitals, schools, airports and other commercial customers are among our loyal clients.

Industrial

The food, beverage and pharmaceutical industries value in particular the hygienic and sustainable BLÜCHER® Drain solution. The stainless steel provides a solution which requires a minimum of maintenance and offers maximum longevity. The long product life expectancy ensures a cost-effective installation, and in AISI 316L steel the drains also provide a durable solution for the chemical industry.
