

FM Headset System

The Broadcastvision Entertainment FM Transmitter is the most universal entertainment solution available. With a transmission range of more than 25,000sq/ft, the FM transmitter provides high quality audio transmission for maximum reception. Broadcast audio wirelessly from a TV or any audio source with an audio output jack.

The FM Headset from BVE is a small, lightweight, battery operated FM radio offering exceptional sound quality that fits comfortably on either ear. Affordable and dependable, the headset is designed to deliver crystal-clear reception to your clientele. Now your clientele can easily listen to the audio being broadcasted from your TVs or in house music while still being able to interact with others. The FM Headset is a dual frequency receiver that allows your clientele to listen to preset stations that are in your facility or available radio stations in your area. Custom branding available.
