

# Embedded Soft Edge Presentation using 1 Di-VentiX II with 4 Live PiP Layers + 1 Still background

The **Di-VentiX II** is capable of displaying up to 4 live sources in embedded Soft Edge Blending mode, regardless of the size or position of the layer. By using a stored background and stored logos, you can achieve up to 7 layers on the screen at one time.

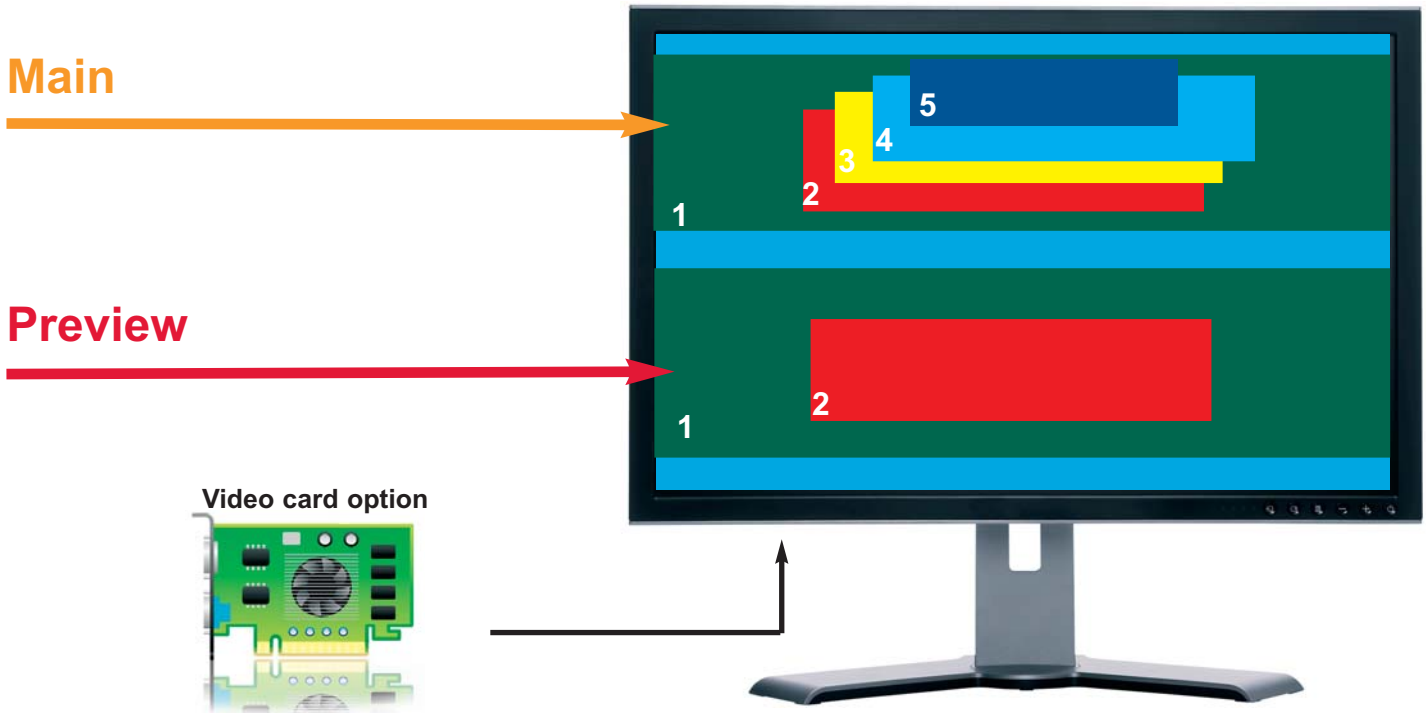

The **Di-VentiX II** with the Video Option also allows to have a full Main screen for recording / broadcasting, or a split screen between Main and Preview in embedded Soft Edge Blending Mode.

The **Di-VentiX II** in Embedded Soft Edge mode can seamlessly switch the still background with 4 independant stored frames.

## Video Option for Monitoring or Recording on a single display - Video Output available in Composite, S-Video, Component, SDI, HD-SDI and Video DVI

The **Di-VentiX II** with the Video Option allows to have a full Main screen for recording / broadcasting, or a split screen between Main and Preview in embedded Soft Edge Blending Mode for monitoring.
