

Axion™

Axion™

New!

Model. **ARC100**

- High End Remote Controller for Large Events / Multi-venues
- Controls simultaneously up to 6 Screens in a Single or Multiple display configuration
- For the Control of Several Switchers of the **ix**, **Octo Vue** Series
- Joystick with Direct Effect Access
- Preview of Multi-screen Configurations on 7" WVGA Color Touch Panel

Technical Specifications

User Controls

- TFT touch screen, 7" (18 cm)
- Buttons for direct access to inputs
- Buttons for direct access to switchers
- User programmable buttons
- Take, Freeze, Main and Preview selection
- T-Bar for smooth manually controlled transitions
- Joystick for easy and fast set up of image or effect parameters

Input/Output Connectors

- RJ45 for TCP/IP Ethernet connection
- USB port
- RS232 Com Port

Power Supply

Internal, universal, automatic 100-250 VAC; 50/60 Hz (130W) (UL, CSA, GS, CE) On/Off power switch

Supplied with

- 1 x Power cable
- 1 x User manual

Dimensions - Compatible 19", 6U

- P 10.5" x L 17.5" x H 4.35"
P 265 mm x L 440 mm x H 110 mm
- Unit: P 10.5" x L 17.5" x H 4.35"
P 265 mm x L 440 mm x H 110 mm

Weight: 9 kg (20 lbs)

Warranty

3 year warranty on parts and labor back to factory

Specifications subject to change without prior notice

Axion™ by Analog Way is a **Powerful High End Remote Controller** to manage, independently or simultaneously, several Switchers of the **iX, Octo Vue** series and other systems, either as stand alone boxes or any kind of combination, including soft-edge blending.

Axion offers the control of matrices in order to multiply the number of sources, whatever the **Analog Way** Switchers number of inputs is.

Once connected to the **Analog Way** Switchers, **Axion** can control up to 6 independent screen configurations in different locations (single display or multiple projectors in soft-edge blended mode). **Axion** controls all the effects and functionalities of the **iX** Switchers:

- Control of soft-edge blended presentations, on up to 6 different screens, horizontally or vertically,
- Size, shape, and position of the PIP,
- Transition effects,
- Control of sequences,
- Configuration of each input/output of the controlled Switchers.

Designed with a 16/9 TFT color touch screen for preview of all configurations, **Axion** is especially dedicated to facilitate the setting and programming of presentations on multi-screens. It perfectly fits high end large events

with multi-rooms and very large screens using soft-edge blended technology.

The numerous user friendly, customizable and configurable presets enable preparation of the screen configuration, so that they are easily accessible during the presentation. A last minute modification is easy thanks to the direct input/output selection access.

Also equipped with a USB port, the complete configuration of the event can be saved for future use.

With its robust and "Live resistant" buttons and its quality T-Bar and joystick, **Axion** will help to manage multi-screen, multi-location live presentations with a total peace of mind.

The **Axion** allows controlling the **Di-VentiX II** as well as external matrices when they are connected to an iX range system (Di VentiX, EventiX, NatiX, CentriX)
