

Stage Speaker Cable

Quality Products

Liberty offers both 12 and 14 AWG cables. Most suppliers are using a compromise 13 AWG cable. By using a 12 or 14 AWG cable we offer lighter cable for short, low-power runs and a heavier duty cable for higher power and/or longer runs. Speakon™ connectors are rated up to 12 AWG cables by Neutrik. Use them to their full capacity to get the most from your amps and speakers! They may also be wired in parallel to increase power capability of the cable and decrease RF emissions.

We can supply these cables terminated with Speakon™ connectors, Amphenol™ AP series, tinned, spade lug, and other connectors as requested. Lengths are custom. Also available in bulk.

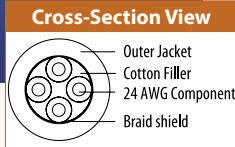

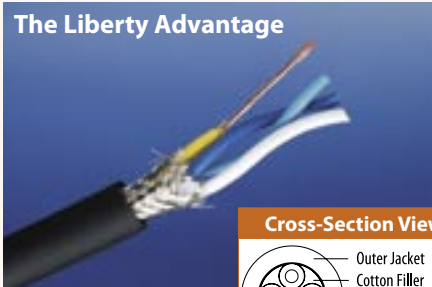

Stage Speaker Cable

Part #	# of Conductors	AWG Size/ Stranding	NOM Insulation (Inches)	NOM Jacket (Inches)	NOM OD (Inches)
12-4C-STAGE	4	12 (168x34)	.025	.040	.444
12-8C-STAGE	8	12 (168x34)	.025	.040	.580
14-4C-STAGE	4	14 (105x34)	.025	.040	.390

Stage X-Cross Microphone Cable

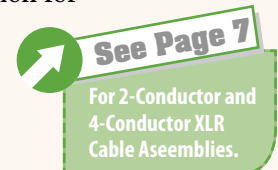

The Liberty Advantage

The Liberty X-Cross Cables have soft but tough tactical jackets. They are extremely flexible and have the “right” feel. We took them one step farther and use four different colors to identify the four 24 AWG conductors to make alternative wiring schemes easy. They have 95% braid shielding.

The Industry Workhorse

- Extra Flexible!
- Tinned Copper Stranded Conductors
- Polypropylene or Polyethylene Insulation for Lower Capacitance
- PVC Jacket
- Short Twist Lengths

Stage X-Cross Microphone Cable

Part #	# of Pairs	AWG Size/ Stranding	NOM Insulation (Inches)	NOM Pair Jacket (Inches)	NOM Jacket (Inches)	NOM OD (Inches)	NOM Capacitance (pF/ft)	
							a)	b)
24-2P-STAR-* CM *Available in Black or Red	2	24 STR TC (40X40)	.016 Blu-Wht Lt. Blu-Yel LDPE	95% TC Braid +	.035 Blk, Red PVC	.237	46	57

a) Capacitance between conductors. b) Capacitance between one conductor and the other connected to the shield.
