

## Digital Solutions Overview

As a leader in new product development for the AV industry, Liberty is pleased to introduce our DigitaLinx™ Digital Solutions product line. The DigitaLinx™ system incorporates a device and interconnection system to route and extend DVI

and HDMI signals in residential and commercial installations. The system includes digital Repeaters, Distribution Amplifiers, Switchers and Fiber Optic solutions for long-distance signal routing.

### Advantages of HDMI Digital Devices

- HDMI is backwards compatible with DVI.
- Liberty offers DVI to HDMI cables and adaptors for easy transition between the two digital platforms.
- Liberty's HDMI DigitaLinx devices are HDCP (High Definition Content Protection) Compliant.

Call today to put our New Digital Solutions to use for your business!

### HDMI Repeater

Liberty's HDMI Repeater extends the length of any HDMI or DVI cable by regenerating the digital signal before it outputs to the HDMI or DVI monitor or projector. HDMI Repeater enables you to relocate your video sources or computer to a safe, quiet and hidden location.

**Part #: DL-HDR**

### HDMI 1 IN, 5 OUT Distribution Amplifier

Liberty's Distribution Amplifier allows one digital HDMI or DVI video or computer source to be split into five HDMI displays. The built-in amplification function enables HDMI and DVI signal distribution without any signal loss or digital noise.

**Part #: DL-HDD15**

### HDMI 4 IN, 1 OUT Switcher

Liberty's HDMI Switcher allows four different digital (audio/video) sources to share one video display. Our unique switch allows easy switching between four different digital sources using remote control unit or the manual switch in front. Perfect for home theater systems, no more hassles of manually plugging in different HDMI or DVI Connectors to view different video sources. (e.g. DVD Player, Satellites and PC)

**Part #: DL-HDS41**

### HDMI Fiber Optic Extender

This unique HDMI/DVI fiber optical cable system lets your digital display (Plasma TV, Digital Projectors, LCD Monitors, HDTV, etc) extend be located up to 330ft. (100 meters) away from the video and audio sources based on using the HDMI or DVI standard. Our optical conversion technology enables noise-free and high-res (up to UXGA or 1080p) extension up to 330ft. Ideal for fishing through small conduits or other openings as the connectors are detachable from the cables (requires only 1/2 inch opening) are much smaller than the DVI connectors used with our DVI-D/SL-FO-X.

**Part #: DL-HDFO**
