MOLDED PROJECTOR NET™ CABLES

A manufactured bundle which contains the following components:
- VGA, Audio 3.5 stereo mini plug and CAT5E RJ45 network plug
- VGA and CAT5E cables are siamesed with the audio cable attached to VGA connector
- Audio and Network cables extend 2 feet past the VGA connector on each end
- Highly flexible PVC jacket. Includes ferrite bead.

Length (ft.)	Connection	Part #
5, 10, 15, 20, 25	HD15 Male w/Audio & RJ45 to HD15 Male w/Audio & RJ45	E-VGAANM-M-S

Why do Liberty VGA Cables work so well?
Aside from being the best-designed product in the marketplace, Liberty's VGA cables employ a ferrite bead on all of our VGA-style cables. This added feature reduces electromagnetic interference (EMI) and radio frequency interference (RFI) transmissions from the environment resulting is greater signal protection.

SATELLITE RADIO ANTENNA EXTENSION

A Solution for Residential Projects Requiring Long Cable Runs
Liberty's Satellite Radio Antenna Extension System has been designed to provide an additional 50' of cable for home projects that require longer cable runs.

XM SATELLITE RADIO   SIRIUS

SATELLITE RADIO ANTENNA EXTENSION

The system includes a 50' extension and an adapter so it will work with both Sirius and XM Satellite Radio Systems.
