

HOME THEATER MASTER®

Entertainment Made Simple™

Preprogrammed and Learning LCD Screen Remote Control

"An extremely versatile and user friendly remote. Holding this sleek and ergonomically designed remote is equivalent to having eight original A/V remotes operating in the palm of one's hand"

TVRO Magazine

"I love your SL-9000 remote control. I have a very complex home theater system and it does absolutely everything I could want."

SL-9000 Owner

"This is one remote that lives up to its 'universal' promise and up to its 'Home Theater Master' name."

Popular Electronics Magazine

"It's probably the best value you'll find in a universal remote control."

Home Theater Magazine

"The well-placed buttons make the remote immediately intuitive to use."

CNET.com

"Give me a simple, no fuss, no-muss controller like the Home Theater Master SL-8000* any day. Now that's a universal remote I'd kill for."

Time Magazine

*SL-9000 is an advanced version of SL-8000 with full learning capability.

SL-9000

Home Theater Master®

SL-9000

A practical preprogrammed/learning remote control every household needs to realize the full potential of their system. Operates up to eight components and widely acclaimed by home theater enthusiasts for its versatility.

Preprogrammed with over 1,000 audio/video components and learns up to 376 functions from your original remote controls.

- **Controls 8 Devices**
Operate up to 8 devices and allows you to change the device descriptions on LCD screen.
- **Easy to Program**
Setting up the remote control for the A/V components is very easy with preprogrammed code numbers. Teaching the remote control is very intuitive and simple.
- **Macro Operations**
Four macro buttons and Power button can send out up to 15 commands each and 8 device buttons can also send out power on command and audio input select command.
- **Punch Through Operations**
You can assign audio or TV volume, satellite or cable channel and VCR or CD transport functions to any of the 8 devices.
- **Ergonomic Design**
Ergonomic design and strategically located buttons make remote control operations very intuitive.
- **Backlit**
Bright "EL" illumination on all buttons and LCD screens provides convenient home theater operation in low light.
- **Memory Backup**
Built in memory back up retains memory up to 10 years with dead batteries and one year without batteries.
- **Energy Efficient**
Batteries last over 6 months under normal usage.

In addition to learning capability, SL-9000 is preprogrammed with the following Audio/Video and Home Automation components:
