- Lanyard Attachment
- 4 inches
- 5.2 ounces

Versatile

Kick has needlenose and regular pliers that are long and slender enough to fit into tight recesses. Fine gripping teeth let you grab a piece of paper with just the tips.

Clever

Leatherman's three-in-one design gives you a can opener, bottle opener and wire stripper in just one blade. It keeps the tool lightweight while adding features.

Strong

We already had the strongest pliers out there, but now we've redesigned them to withstand 133% more squeezing load.

Sharp

Our 420 stainless steel knife is precision ground while immersed in coolant for the sharpest blade possible. The cutting edge on the Kick knife blade does not come in contact with the inside of the handle—something that can dull knives when folded for storage.

Precise

Screwdrivers are ground for sharp edges. This extra manufacturing step lets you hold a screw better and reduces slippage.

New Jaw Design

Our new jaw design includes wire cutters with 58% more cutting area than before. Leatherman's wire cutters can repeatedly cut 12-penny nails and still cut the finest monofilament you can find.

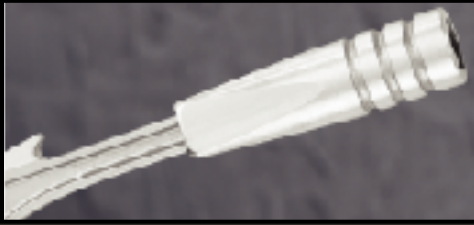

Zytel® Grips

Kick's new handle design with Zytel inserts provides a comfortable grip whether you're working for a few minutes or a few hours.

Removable Bit Driver

(Sold separately)

Even more features are quickly added to Kick with Leatherman's Removable Bit Driver. The driver fits easily over Kick's Phillips screwdriver blade, letting you switch bits and be ready for any situation.

The Removable Bit Driver is sold with bits that are engineered and manufactured to Leatherman's exacting standards. Made from S2 Tool Steel, they are 35% stronger than stainless. A zinc coating makes them even more corrosion resistant. All are ground to perfection, with a Rockwell hardness of HRC59.

Hex 4mm and 5mm

Hex 6mm and 1/4"

Torx #10 and #15

Phillips #0 and #3

Screwdrivers .075" and .200"

Removable Pocket Clip

(Sold separately)

Rather not wear a sheath? Then clip your Kick to your jacket, backpack or car's visor with the removable pocket clip. Our removable pocket clip easily screws into Kick's outside rivet.

The Leatherman Difference

Leatherman is known for producing the world's most precisely engineered multi-tools. Tim Leatherman's manufacturing standards remain unmatched in the industry today. With our newest line of products, the Leatherman tradition of innovation, tight specifications and strength continues to endure.

Our expertise doesn't end with our tools—it also shows in our service. Competitive pricing, prompt delivery, excellent customer service and outstanding warranty support round out our dedication and commitment to you.

The Leatherman Warranty

Leatherman Tool Group, Inc. proudly stands behind our products. If you ever have a problem with a genuine Leatherman tool, you can count on us to make it right with fast warranty service for a full 25 years from the purchase date.
