

# Meet the MX-200

**“One of 2002’s  
95 Perfect Things”**

As chosen by the editor’s of Men’s Journal magazine. The MX-200 has been lauded in dozens of publications from the Robb Report to the Wall Street Journal. Designed to complement a home theater with a multi-activity remote control (like the MX-800 or MX-700) the SideKick automates only one activity: watching TV. It will provide you with the smallest, lightest and simplest remote control possible for the activity of surfing Satellite, Cable or regular Broadcast TV. For kids and casual users (or for the truly committed Surfer), the MX-200 is perfect.

## MX-200™

### SideKick to Any Automation System

- ◆ **Powerful Room Flooding Infrared Output Provides 50-60' Range**
- ◆ **Programs Using Easy MXEditor PC Software**
- ◆ **Automate a Complex Home Theater for Watching TV (either Satellite, HDTV, Cable or Broadcast)**
- ◆ **ON Button Macro Powers Up the Entire Home Theater and Configures Picture and Sound for Watching TV**
- ◆ **OFF Button Macro Powers Off the Entire Home Theater**
- ◆ **Favorite Channel Macros Take You Directly to a Low, Mid and High Numbered Channel with One Button Press**

**HOME  
THEATER  
MASTER®**

Entertainment Made Simple™

# The Ultimate Surfing SideKick!

## Automation Using Custom Programming

### Extensive Automation with Macros

The powerful memory of the MX-200 offers up to 11 potential macro buttons. Each of these macros can play back recorded sequences of commands that completely automates a complex system with one button press. A macro can record and play back up to 190 steps with time delays between steps when desired. For example: A single press of the ON button could turn on the TV, the Surround Sound system, and the Satellite Receiver, then set the TV to the correct Video Input, the surround system to the right Audio settings, and finish by selecting your favorite Satellite TV station.

### The Perfect "Simple" Remote for Bedrooms, Kitchens and Guest Rooms

Because of its simple key layout and powerful macro capability the MX-200 becomes the perfect remote for any room where the only activity is watching TV. Even if the room has its own Satellite Receiver or Cable Box, the MX-200 will automate ON, OFF and channel surfing while providing none of the complicated distractions of the original remote controls. Live life simply, with an MX-200 SideKick!

### Windows Based MXEditor PC Software

The MX-200 and its MXEditor Software contains over 1,500 "code sets" of Brand/Models including hard to find and specific discrete codes that allow for precise control of all system components. Learning codes is enabled with an MX-800 or MX-700 remote control connected to the PC. MXEditor can also be used on a Mac, if the user has a Windows 98, ME, 2000 or XP emulator.

*MXEditor Software runs on PC's with Windows 98, ME, 2000 or XP.*

*By utilizing the programming done for the master MX-700 or MX-800, the SideKick can utilize any learned code already in the configuration as well as macros and pre-programmed codes.*

*The programmer simply drags and drops Macros programmed for an MX-800 or MX-700 onto the desired MX-200 button. All eleven buttons can be programmed in seconds!*

## Power and Simplicity

### Memory Back-Up

The MX-200 system features a smart flash memory back-up system that will retain the programmed memory for up to ten years, even with dead batteries.

### Ergonomic Design

The strategically located buttons and ergonomic design of the MX-200 make the operation of the most advanced system a pure pleasure.

### GemStone™ Buttons

The GemStone buttons have a look and feel that instantly appeals to the user. Unlike standard rubber buttons, these GemStone buttons provide the ultimate in tested reliability, give a secure tactile feel and possess a more elegant look.

### Warranty

One year parts and labor.

## Specifications

### MX-200 Remote Control

**Range:** 50-60 feet depending upon components

**Weight:** 5 oz. (with batteries)

**Memory Capacity:** 11 Macro Buttons of up to 190 Steps each.

**Size:** 5.8" x 1.7" x 1.3"

**Batteries:** Two AAA Alkaline batteries included

**Status Indicator:** Tri-Color Status LED
