

# SOUND AMBASSADOR

The Phonic Sound Ambassador systems are active PA speakers with built-in mixers ideal for use at assemblies, presentations, functions, and business meetings. The Sound Ambassador 35 Deluxe and 75 Deluxe can be customized to accommodate two wireless UHF microphones, as well as a CD player with MP3 playback. With multiple inputs available on each model's mixer, the Sound Ambassadors all feature Line Out connectors, enabling two or more units to be linked together. Additional passive and active expansion speakers can also be connected to the units to round out the entire setup. Built-in batteries ensure you can use the Sound Ambassador anywhere, at any time. All of these features combine to make the Sound Ambassador a must-have for any school, house of worship, business or club.
