- Screen is fully assembled and shipped in wood crate
- Custom sizes available
- Available in 16:10 format
- Optional tubular stand legs

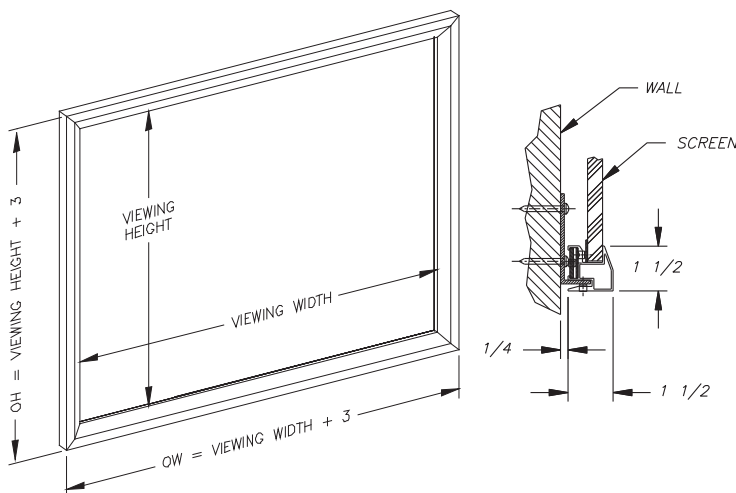

SilverStar™ is Vutec's patented front projection screen with a gain of 6.0. This award-winning screen delivers the ultimate in picture quality, providing high brightness, vivid colors, high contrast and a 180 degree viewing area, putting it in a class by itself as a truly revolutionary high-definition screen.

SilverStar's superior performance begins with its innovative, patented technology—a silver-based material combined with multiple optical layers to provide the 6.0 gain. This state-of-the-art technology increases color saturation while expanding contrast in controlled or uncontrolled lighting environments.

SilverStar is custom made to order and can be multi-plexed for large theaters. With unsurpassed versatility, it is the screen of choice for home theater systems, retail displays, command and control, religious and educational venues.
