The AutoMask-V Series is designed for the discriminating film enthusiast who demands the “Full Theater Experience”. The AutoMask-V series Masking Screens feature two vertical masking panels that have been designed for use with anamorphic lens projectors for the dedicated Theater environment.

AutoMask-V series features the native wide screen movie (2:35:1) CinemaScope format, masking the screen image down to HDTV 16:9 format.

AutoMask-V masking systems has been designed with precision “mask to screen surface tolerances” that deliver superior vertical masking capabilities and trouble free performance.
