

center desks

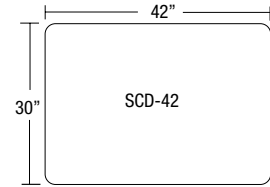

The Config-u-raxx studio furniture system from Raxxess is a completely modular workstation designed to compliment the modern studio environment.

The Config-u-raxx line consists of an array of desktop surfaces, side wings and shelves, as well as add-ons such as doors and keyboard trays. Each component can be easily interfaced with any other component in the system, allowing for an almost endless variety of configurations. Future expansion of any system is just as easy.

**SCD-36M** straight center desk  
Use RB-36, 46 or 60 with this desk

**SCD-42M** straight center desk  
Use RB-46 or 60 with this desk

side wings available with either melamine or steel side panels
