Vision XFT gives you a tri-plex screen that lets you watch CinemaScope as it was filmed.

Features and Benefits

- Maintains constant image height for 2.35:1 CinemaScope, 16:9 HDTV, and 4:3 NTSC TV aspect ratios through an intelligent motor control system that's electronically integrated into the product to achieve a perfect aspect ratio with each viewing experience.
- Includes an intelligent motor control interface and Decora-style keypad control.
- Integrates with Vutec's IR6 infrared adapter to allow users to conveniently control the system via a learnable IR remote.
- XFT is fully compatible with control system interfaces by AMX, Crestron, Lexicon and other manufacturers.
- Ships fully assembled for immediate installation.

Featuring

Vision XFT:
a sophisticated video projection
screen that accommodates the widest
variety of viewing options—without
exorbitant add-ons.
