

model 3300G

Pedestal Mounted Drinking Fountain

FEATURES & BENEFITS

PUSH BUTTON

With its patented (Pat.# 6,981,692) push-button valve assembly which allows for front access stream adjustment as well as cartridge and strainer access, this fountain offers the ultimate in ease of maintenance.

BARRIER-FREE

Barrier-free capabilities combined with its ease of use allows for a number of installation location possibilities.

BUBBLER HEAD

Patented (Pat.# 7,025,282) EnviroGard™ polished chrome-plated brass bubbler head provides sanitary service in the worst of conditions. The stainless steel shroud covers the orifice surface until the water is activated, and covers it again after use.

DRAIN CLEAN-OUT

Top-down access to the drain allows the fountain to be cleaned without taking the unit apart, which is ideal for outdoor settings that are high in drain-clogging sediment like leaves, garbage, and other debris.

CONSTRUCTION

Heavy-duty 11 gauge galvanized steel incorporates a recessed push button and welded bubbler guard to provide extra durability, and a vandal-resistant bottom plate for added peace of mind. Stainless steel basin with a high-polished finish compliments almost any setting, and it also resists stains and corrosion. Due to the galvanizing process, appearance of the finish may vary.

OPTIONS

- Bib Faucet: Model 6250LF, self-closing, plain end, lead-free, brass bib faucet with polished chrome-plated finish.
- Hose Bib: Model 6275, compression hose bib faucet assembly with rough chrome-plated finish.
- Filter: Model 6426, 12" x 2", in-line lead removal element that reduces lead from incoming water supply.
- Sand Trap: Model 6611, sand trap for installing adjacent to pedestal drinking fountains to help prevent debris and contaminants from clogging waste line.

SPECIFICATIONS

Model 3300G "Hi-Lo" barrier-free pedestal drinking fountain shall include an 11 gauge galvanized steel pedestal, polished stainless steel basins, push-button operated valves with front-accessible cartridge and flow adjustment, polished chrome-plated brass bubbler heads with patented contaminate protective pop-up canopy backed against pedestal guards, polished chrome-plated vandal-resistant waste strainers with top-down clean-out access, vandal-resistant access plates, integral mounting feet, and 1-1/2" slip waste.

APPLICATIONS

This drinking fountain has a unique application at parks and golf courses where conservation efforts are moving many facilities towards using less expensive non-potable water for irrigation. By shielding the bubbler head, this unit also provides peace of mind to those using the fountain that possible contaminants won't be passed through the drinking water. The 3300G offers a solution for outdoor wheelchair access as well as vandal-resistance, appealing to all users through accessibility and safety. This series may also be a nice addition to areas such as parks, schools, and other areas where drinking facilities are needed.

Model meets all current Federal Regulations for the disabled including those in the Americans with Disabilities Act. Haws manufactures drinking fountains, electric water coolers and electric drinking fountains to be lead-free by all known definitions including NSF/ANSI Standard 61, Section 9, California Proposition 65, and the Federal Safe Drinking Water Act. Product is compliant to California Health and Safety Code 116875 (AB 1953-2006).
