

- **Sales Tip:** Factory-assembled custom configurations available – Call Customer Service for more information (800) 621-2802.
- **Where to Specify:** Wet environments where anti-fatigue, drainage, and slip resistance are all a priority. PVC construction makes it especially resistant to chemicals found in harsh wet environments. Where custom configurations are a consideration.

- A PVC based workstation mat that combines the durability and toughness of an industrial mat with true ergonomic support and comfort
- Tiles and ramps made from 100% recycled PVC (Black only)
- A multi-tiered footing design elevates the mat off the floor, creating air pockets that flex with the weight of the worker
- A large hole drainage system facilitates the removal of liquids and debris from the work area
- Beveled ramps eliminate trip hazards
- PVC Construction offers resistance to chemicals, cutting fluids, oils and greases
- A pronounced raised diamond pattern on the mat surface, and an inverted-V pattern on the ramps provide additional traction
- Sorbent pads can easily be placed underneath the mat in extremely wet applications
- A permanent interlock system ensures that the mat will not come apart, eliminating the need for potentially harmful adhesives
