**SALA**®

**NEW**

The most popular harness on the market has just gotten better!

Patented  
Others Pending

*The Delta II line features a new No-Tangle back pad with a stand-up dorsal D-ring for easier and quicker connections!*

- The spring loaded stand-up back D-ring ensures fast, easy and safe connections\*
- Add the Delta™ Comfort Pad for wrap-around comfort enhancing worker productivity and compliance - it's even removable and washable
- The exclusive Delta No-Tangle® design holds the shape of the harness for added comfort and ease-of-use - it greatly increases worker acceptance while reducing improper usage
- Optional color coded quick-connect buckles make it easy to put on and fit every time.

## The Most Popular Harness on the Market has just Gotten Better!

The dependable DBI/SALA Delta No-Tangle® harness has been improved in a new line we call Delta™ II. New features include a new back pad with a stand-up, spring-loaded back D-ring, option for adding more padding for greater comfort and productivity and optional patented DBI/SALA quick connect buckles. Of course, each Delta II includes all the important quality and safety features you have come to trust on a DBI/SALA product. Our exclusive Delta No-Tangle® Pad holds the shape of the harness, adds comfort and makes the harness easier to don. And, every Delta™ harness combines maximum comfort, freedom of movement and ease-of-use.

**Fast, Easy and Safe Connections** The Delta pad now incorporates an integrated spring loaded “stand-up” dorsal D-ring. This feature is another industry first, and provides the user with quick and safe connections enhancing ease-of-use and worker productivity. Workers no longer need to be a contortionist or have someone else “hook” them up!

**Quick-Connect Buckles** No more buckle fumbling, adjusting or frustration. Easily adjust, engage and disengage with only one hand. These patented quick-connect buckles are also color-coded, making it easy to don the harness correctly every time. Quick-connect buckles are truly intuitive, fast, efficient and totally secure!

**Wrap-Around Comfort** With the addition of the optional Delta™ Comfort Back Pad, your harness will be comfortable for longer hours of wear with less fatigue. It provides the comfort of a luxury harness at a midlevel harness price! The extra padding on the shoulders distributes the weight and keeps the pressure off, even when wearing heavy tool belts. The padding is removable and completely washable!
