FLEXLINE HOSE, THE PROFESSIONALS CHOICE

Flexline, part of the Kidde Fire Fighting organization, is a quality brand of woven jacket and rubber fire and industrial hose and hose products. Products manufactured from reliable performer, offering a complete range of products for general purpose use, industrial, municipal and forestry fire fighting.

MUNICIPAL INDUSTRIAL FORESTRY

PROTECTASHIELD™ Hose Coating

Performance you can count on

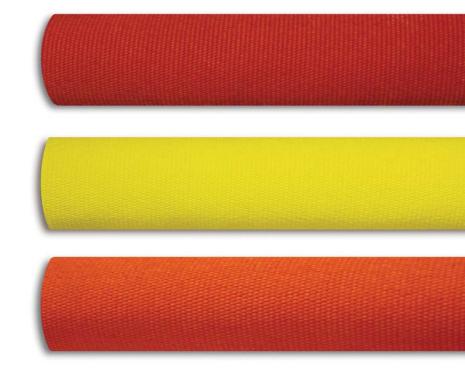

All Flexline woven jacket products are available with PROTECTASHIELD, our unique, innovative, abrasion resistant coating. PROTECTASHIELD completely encapsulates the fibers of our jacket, providing a long lasting, vibrant color shield against the rough treatment that fire hose is exposed to every day. PROTECTASHIELD displays extreme resistance to bacterial and mildew growth as well.

When subjected to the Mil-H-24606B Taber Abrader test, PROTECTASHIELD surpassed the minimum requirement by 6 times compared to other hose manufacturers. This coating is available on Flexline AP8D II, AP8D, AP8DTP, Flexlite, AP6D II, AP6S, AP5S, and AP3S hose products.

PROTECTASHIELD is offered in six vibrant NFPA recommended colors; red, yellow, orange, blue, green and tan.

Flexline AP8D II is the ultimate in quality, municipal grade attack fire hose. This durable, double jacket hose is constructed of 100% high tensile strength polyester yarns, both warp and filler, and lined with a high-tech EPDM tube. Its engineered design guarantees minimum weight with maximum durability and flexibility with minimal friction loss. The standard color is white. Other colors available with our innovative PROTECTASHIELD abrasion resistant coatings are red, yellow, orange, blue, green and tan.

Flexline Flexlite utilizes high strength, low stretch entangled filament polyamide/cordura fibers to produce a highly abrasion-resistant lightweight hose. The high-tech thermoplastic lining also contributes to reducing the overall weight of the hose. Flexlite's lining has a tensile strength of over 5000 psi (35,000 kPa). Flexlite Hose is available with our innovative PROTECTASHIELD abrasion resistant coating. The standard color is yellow.

Flexline Flomaster Attack is a lightweight nitrile rubber through-the-weave construction fire hose. Its synthetic jacket is completely protected and locked in by a rubber cover and lining for extra toughness and durability. A heavy rib construction makes this hose resistant to cuts, punctures, impact and abrasion. Flomaster Attack is a 600 psi (4200 kPa) fire hose that withstands temperatures from 1200°F to -37°F, (649°C to -38°C). Its light-weight design is virtually non-kinking and ideal for municipal fire protection. The standard colors for Flomaster Attack are yellow and red. 1" size is available in yellow only.

Flexline Flomaster Supply is a tough large diameter hose with the ability to deliver more water at a lower cost. But it doesn't stop there. It is lightweight, compact and durable with a high resistance to oils, chemicals, ozone and heat. Its tough, high tensile cover and lining, permanently interlocked with the synthetic reinforcement, provide greater abrasion resistance while being snag-proof, kink resistant, and immune to mildew or rot. U.L. labeling is available on 4" (200 PSI) and 5" (200 PSI). The standard colors for Flomaster Supply are yellow or red.

Nitrile rubber covered forestry hoses that require no washing or drying and are mildew resistant. A protective rubber covering resists burns and prevents damage of the textile reinforcement which may be caused by abrasion or hot embers. The standard color is high visibility yellow. There is a minimum order quantity for 1-1/2" size.

This heavy duty double jacket industrial fire hose is designed for daily use where higher pressure and additional abrasion resistance is required. Construction of 100% high tensile strength virgin polyester yarns, both warp and filler, provides extra durability. Hose comes standard with EPDM lining. U.L. labeling is available in 1-1/2", 1-3/4", and 2-1/2" sizes. The standard color for Flexline AP6D II Hose is white. Other colors available with our innovative PROTECTASHIELD abrasion resistant coatings are red, yellow, orange, blue, green and tan.

Flexline EXN5 is a layflat, lightweight, flexible fire hose specifically designed for industrial fire protection. EXN5 features a unique through-the-weave, one piece construction that will not delaminate. The synthetic reinforcement is totally encased in a PVC nitrile rubber cover and lining which is resistant to fuels, oils, chemicals, abrasion, heat, mildew, rot, and ozone. The colors available for Flexline EXN5 are red and yellow. UL Labeling is available in 1-1/2" and 2-1/2".

The through-the-weave design allows the hose to expand under pressure which decreases friction loss and increases water flow. The ozone resistant synthetic rubber liner and cover totally encompass and protect the synthetic reinforcement from the effects of abrasion, chemicals and heat. These products are easily cleaned and are ideally suited for fire fighting and other demanding industrial applications. Colors available are red and yellow.

Flexline EXN4 is a layflat, lightweight, flexible maintenance hose with the durability and abrasion resistance of heavy duty rubber hose. EXN4 features a unique through-the-weave, one piece construction that will not delaminate. The synthetic reinforcement is totally encased in nitrile rubber cover and lining which is resistant to fuels, chemicals, and oil. EXN4 will not mildew or rot and is heat and ozone resistant. The standard color for EXN4 is blue. UL Labeling available in 1-1/2" (200 PSI) and 2-1/2" (200 PSI).

Flexline EXN6 is a layflat, flexible water discharge hose with durability and abrasion resistance superior to conventional rubber hose. Flexline EXN6 features a unique one piece, through-the-weave construction, and attains its exceptional working pressure from a synthetic woven textile. Its excellent durability is derived from a high-tensile rubber compound which completely encases the jacket. The standard colors for Flexline EXN6 are yellow and red.
