

# model 1107LBP

## Wall Mounted Drinking Fountain

### FEATURES & BENEFITS

#### CONSTRUCTION

Heavy-duty 14 gauge Type 304 Stainless Steel construction with integral 1/4" mounting plates for extra durability. Unit also includes vandal-resistant bottom plates for added peace-of-mind.

#### BUBBLER HEAD

Polished chrome-plated brass bubbler head features an integral basin shank for added strength, and is equipped with a shielded, anti-squirt orifice that provides a steady sanitary source of water.

#### INTEGRATED TRAP

Spacious fountain design allows for the trap to be internally mounted which allows for easy access, and aids and reduces the installation process.

#### QUALITY CONTROL

Fountain is pre-built and fully water and pressure tested to ensure no leaks and proper function for reduced installation time and added peace of mind.

#### GALVANIZED FINISH

Tough galvanized coating is ideal for areas where vandalism and graffiti is an issue. Due to the galvanizing process, appearance of the finish may vary.

#### ANTIMICROBIAL TREATED

Specific components are antimicrobially treated using the natural protection of silver. Silver helps protect against the growth of mold and mildew on the treated components. Treated surfaces include bubbler head, waste strainer and trap.

#### ACCESS

Low profile designed bowl and integral trap that is set back for knee clearance allows for adult or child ADA access (when installed at appropriate heights).

#### PUSH BUTTON

With its patented (Pat.# 6,981,692) stainless steel, push-button activated, valve assembly which allows for front access stream adjustment as well as cartridge and strainer access, this fountain offers 100% lead free waterways. The valve works at an operating pressure range of 30 to 90 psi.

### SPECIFICATIONS

Model 1107LBP wall mounted barrier-free drinking fountain shall include a 14 gauge Type 304 Stainless Steel satin finish basin with back panel and integral 1/4" stainless steel mounting plate, antimicrobially treated bubbler head, push button, waste strainer and trap to protect against the growth of mold and mildew on the treated components. Push-button operated stainless steel valve with front-accessible cartridge and flow adjustment, 100% lead-free waterways, polished chrome-plated brass vandal-resistant bubbler head, polished chrome-plated brass vandal-resistant waste strainer, vandal-resistant bottom plate, and a 1-1/4" IPS internal trap. Unit can be mounted to meet ADA or Child ADA specifications.

### APPLICATIONS

Perfect for schools, airports, shopping malls and other high traffic areas. When installed properly, the heavy-duty, low profile design of the 1107LBP meets all current Americans with Disabilities Act requirements while providing an integrated trap that is ideal for quick installation, and can easily be installed on concrete or solid walls eliminating the need to provide "in-wall" trap access. The vandal-resistant bottom plate and 1/4" integral mounting plate also bring added peace of mind.

Model meets all current Federal Regulations for the disabled including those in the Americans with Disabilities Act. Haws manufactures drinking fountains, electric water coolers and electric drinking fountains to be lead-free by all known definitions including NSF/ANSI Standard 61, Section 9, California Proposition 65, and the Federal Safe Drinking Water Act. Product is compliant to California Health and Safety Code 116875 (AB 1953-2006).

### OPTIONS

- Bubbler Head: Model 5725 EnviroGard bubbler is a polished chrome-plated solid brass bubbler head with stainless steel water activated pop up canopy. (Pat.# 7,025,282)
- Filter: Model 6426, 12" x 2", in-line lead removal element that reduces lead from incoming water supply.
- Mounting: Model 6700 universal mounting plate for most wall mounted fountains.
- Support Carrier: Model 6800 universal in-wall mounting support for use with most fountains.
