TEAMS*mobile*

THE HVAC MOBILE APPLICATION OF TOMORROW - TODAY

- Terminal unit selection & performance data from anywhere.

- Simplified screens for ease of use.

- Works from any smartphone with internet browser.

- No need to download or update.

Real-time information to solve real-time problems.

At Titus, we bring you tomorrow's innovations today! Our latest development places the TEAMS software literally in the palm of your hands. Imagine you are out of the office on location at the project site and need information regarding a terminal unit. With the TEAMSmobile application, that's exactly what you'll have.
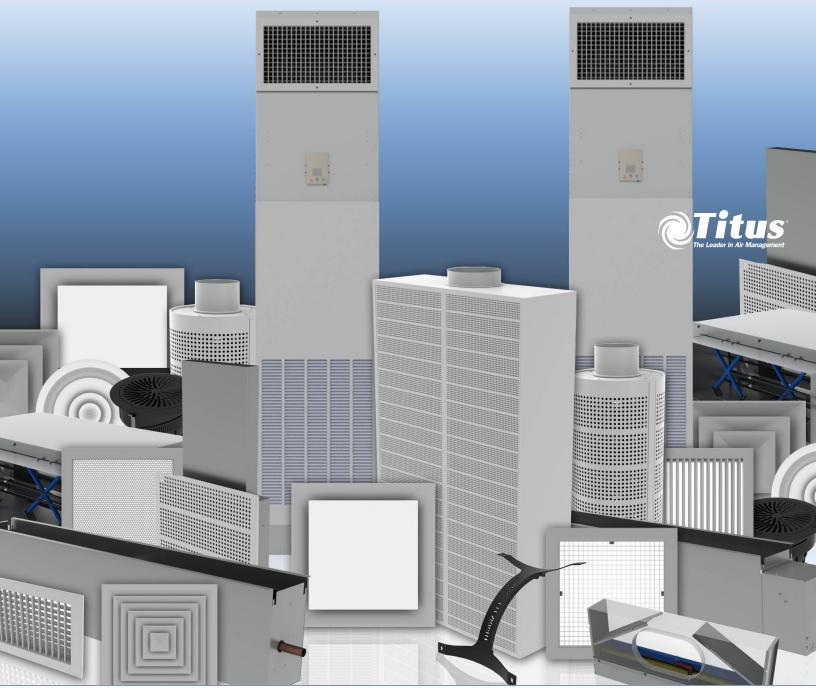

This mobile application allows the user to input data related to terminal units such as model, size, electric or hot water, and NC values. Real-time information to solve real-time problems.

Titus, The Leader in Air Management has an HVAC solution for any application. Whether it is a ceiling installation or an underfloor application, Titus has the products to meet your needs. Contact your local Titus Representative for more information.
