

PVC Sch. 40 Pressure Fittings

Superior strength and enhanced performance are the hallmarks of Mueller's PVC Schedule 40 pressure plastic fittings. With the heritage of being designed and tested under real world "cyclic" pressure conditions, Mueller's pressure plastic fittings have what it takes to stand up to what the "real world" dishes out. Along with superior strength comes superior performance; like excellent corrosion resistance, smoother inner walls for low pressure drops and excellent chemical resistance. Mueller offers a full line of quality PVC Schedule 40 pressure fittings to meet most residential, commercial, industrial and irrigation needs.
