

Brass Fittings & Nipples

Mueller's Red and Yellow Brass Fittings and Nipples are carefully produced and threaded to industry specifications to provide a secure and trusted fit. Though these fittings and nipples are used primarily for water in commercial plumbing and OEM applications, they can also be used in oil, gas and steam applications. They are sought after for repair and maintenance because of the durability and resistance to corrosion. All of our red and yellow brass fittings and nipples are 100% inspected and quality tested.

- Class 125lb Red Brass Fittings
- Red Brass Pipe meets ASTM B43-96 standard and ASTM B16.15 Dimensional Specifications
- Red Brass Material specification is to ASTM B62
- Red Brass Fitting and Nipple threads are to specification ANSI B1.20.1
