

Styrene Sewer & Drain Fittings

When you bury a styrene sewer fitting you only want to bury the "best". Each Mueller Styrene Sewer & Drain fitting has benefited from years of testing and development, creating some of the strongest styrene sewer & drain fittings on the market. These sewer fittings undergo some of the same rigorous testing and dimensioning that goes into our pressure and DWV fitting lines. Couple that with the high strength material we use and you can see why Mueller Styrene Sewer & Drain Fittings are clearly above the rest; even when resting below ground!

ADAPTER

STYRENE S&D
