

DT12

1' x 2' Drop-In Ceiling Speaker

- Easy to Install 1' x 2' "Lay in Design"
- External Tap Selector Switch
- Integral E.O. Box for Conduit or Plenum Wire Termination
- Low Profile Conical Enclosure
- Compact, 2-Unit Master Pack Saves Warehouse Space

The DT12 from Atlas Sound combines ease of installation with superb intelligibility for speech and music reproduction. The 1' x 2' footprint allows quick installation into 2' x 2' or 2' x 4' acoustic tile ceilings. **The integral tile bridge rail may be repositioned to either side of the unit for maximum installation flexibility.** The E.O. Box (with cover) is smartly positioned on the side of the conical enclosure to facilitate rigid or flexible conduit. An external tap selector switch (located on the side of the enclosure) allows for easy system tuning by providing quick installer access to the 70.7V tap settings ranging from .25 to 4 watts plus 8Ω.

A neutral white finish on the perforated baffle and edge support ensures the DT12 will blend in with any acoustical tile material.

The DT12 is perfect for applications in the education market including classroom paging and multi-purpose rooms. The DT12 is also perfectly suited for background music/paging in offices and retail settings.
