

AL2430 Pendant IR Transmitter

The versatile and ergonomic AL2430 pendant / handheld microphone transmitter allows both teachers and students freedom of movement without bulky electronics or cumbersome wires. The dual mode transmitter allows teachers to control microphone volume, overall system volume and mute settings via side mounted soft touch controls. In addition, when "PANIC" and "MODE" controls are pressed simultaneously a contact closure is triggered on the AL2430 receiver. This contact closure may be integrated with almost any intercom or IP based notification system to signal an emergency condition in the classroom. When transmitter is configured for "Student" mode operation, all controls are bypassed restricting the device's functionality for use as a wireless microphone only.

Actual Size

Handheld

Separate LED clusters located on top and bottom of unit guarantee optimum line of sight operation when the unit is hand held

Lanyard

Secure connection features a breakaway function for easy release in an emergency and includes an innovative ID badge clip system

Body Pack

Allows hands free use with optional Atlas Sound AL-HSM headset mic

AL-PH

Infrared Pendant Handheld Transmitter

Two AL-PH transmitters are included with each AL-2430 system. For most classroom applications one transmitter is configured for teacher's voice reinforcement with the second transmitter dedicated for student's use.

Panic Button – Held down along with MODE button causes panic signal to be sent.

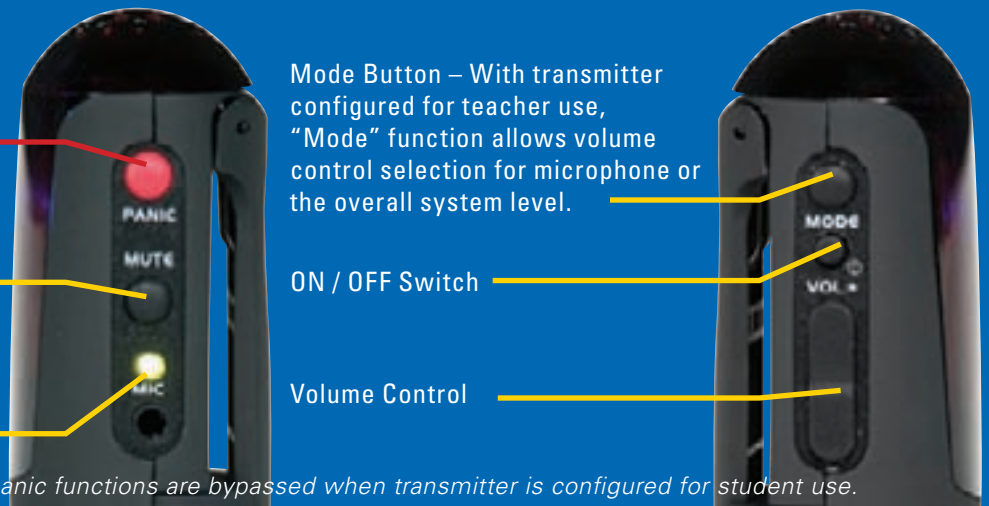

Power Indicator LED
Green = On, Red = Low Battery

Auxiliary Mic Input – For use with optional Headset Mic Model AL-HSM

Mode Button – With transmitter configured for teacher use, "Mode" function allows volume control selection for microphone or the overall system level.

ON / OFF Switch

Volume Control

Mode, volume and panic functions are bypassed when transmitter is configured for student use.
