### LUBRI/FAST

- The unique LUBRI/FAST® formula makes joining TY-SEAL gaskets easier and faster because it's so slick! Applied as a liquid, LUBRI/FAST® actually reduces joining forces required; then it literally "fastens" the joint.
- LUBRI/FAST® is applied with an ordinary paint brush. It may be used for joining all pipe and fittings, and is **required** for joining all larger diameters 5" through 15".

- An excellent water-soluble joint compound, TY-SEAL LUBRICANT has demonstrated its efficiency in millions of joints.
- Quick and easy to use under all conditions...even under water!
- Available in quarts, gallons and 25-lb. pails.
