

ELITE AIR SERIES

# the elite

The revolutionary Elite Air Series design features an oversized case with tailor-made contours and shaped foam strips to securely cushion each drum. The drum rests in the middle, away from side walls, which provides a snug fit and eliminates the need for foam. The unique shape is designed to accommodate most suspended mounting brackets without "upsizing" and comes with a limited, lifetime warranty against cracking.

The Elite Air Combination Tom case blends Elite's optimum protection with the convenience of one case. The contoured divider allows smaller toms to securely sit atop larger toms and is available for 10" & 12" and 12" & 13" tom combinations.

Model	Case Diameters Available
TOM CASE	8" - 10" - 12" - 13" - 14" - 15" - 16" - 18"

# CLASSIC SERIES the classic

Percussion

Recognized as the industry standard rotationally molded drum cases, Protektor Cases' Classic Series provides strength, durability and simplicity for almost any drum size. The rotational molding process gives added strength and durability to case corners and provides water resistance that non-roto molded cases can't match. Custom depths and colors are available. All Protektor Cases come with a limited, lifetime warranty against cracking.

The Multi-Tom case features rounded pockets to make room for floor tom leg mounts. The 34" maximum depth allows for any combination of floor toms (up to 16" diameter), mounted toms and/or snares.

"The high quality of the cases and the innovative designs put them in a category by themselves. Protektor Cases are my only choice."  
**Carl Allen, Internationally Acclaimed Jazz Artist**
