

Control4® Home Controller HC-300

Control4® Home Controller HC-300 C4-HC300C-E-B

The Control4® Home Controller HC-300 provides a solid and extremely versatile foundation for total home control—and incredibly powerful control for the money. Enjoy an intuitive on-screen interface and the ability to control lighting, distributed audio, security, HVAC, energy management and more. With additional inputs and outputs, you'll be able to easily integrate most popular A/V and electronics products into your home-control system to design a system personalized just for you.

- Enjoy simple whole-home automation and the power of a 720p HD on-screen TV interface.
- Additional audio, IR and serial DB9 outs, plus a contact and relay provide a wide range of connection options.
- Enjoy powerful full-featured home control at a price that fits virtually every budget.
- Add control to more rooms or more control features to your system when you want to thanks to a scalable architecture.
- Ethernet, ZigBee and optional WiFi support provides an ideal solution for new or existing homes.
- Intuitive on-screen navigation to control multi-room music, lighting, energy, A/V, temperature and more.

Control4™
