

## C-FOHM/FOHM

### Fiber Optic HDMI Cable

Kramer's new all HDMI cable system is constructed of high-performance hybrid cable containing fiber optic and copper wires terminated with HDMI connectors on each end. Transmitter and receiver modules are built in to the cable for sending HDMI signals long distances with pristine digital image quality.

#### FEATURES

- **Quality Construction** - Pristine digital transmission of HDMI signals at distances up to 100m (328ft).
- **High Resolution** - Compatible with all HDTV standards up to 1080p and all VESA resolutions up to WUXGA (1920x1200) at 60Hz refresh rate with 1 pixel/clock mode.
- **Flexible Power Options** - Uses +5V internal power supplied via the HDMI/DVI graphic source to power the transmitter and receiver or from the provided external +5V power adapter.
- **Varied Selection of Lengths** - Available with black or orange jackets in lengths of 10, 15.2, 20, 30, 50, 100m (32.8 to 328ft).

## C-HM/DM (CM-HDMI/DVI\*)

### HDMI to DVI Cable

The Kramer HDMI/DVI series are high-performance cables with HDMI connectors at one end and a DVI connector at the other. They are designed to connect between digital video sources and displays and recorders that don't have both DVI and HDMI connectors.

#### FEATURES

- **Quality Construction** - HDMI to DVI Single Link (18 +1 pin) cable provides excellent conductivity at high frequencies and longevity without degradation.
- **High Quality Connectors** - The connectors are gold plated for corrosion resistance and best possible connection quality.
- **Note** - Audio is not supported in HDMI/DVI series cables.
- **Varied Selection of Lengths** - Available in lengths of 3, 6, 10, 15, 25, 35, and 50ft (0.9 to 15.2m).
