Control4® Home Controller HC-200

Control4® Home Controller HC-200
C4-HC200B-E-B-NR

The affordable Control4® Home Controller HC-200 adds intelligent one-room, home theater or small-system control to any home. For about the same price as a typical universal remote, you'll enjoy the same features plus on-screen interface and the ability to control lighting, distributed audio, security, HVAC, energy management and more. It can also be used as a primary controller to boost performance in smaller systems. The compact design makes it easy to mount in a rack or behind a TV so you can enjoy the power of on-screen control virtually anywhere.

- Perfectly priced for one-room systems, home theaters or to add on-screen navigation to every room in the house.
- Intelligent control with multiple IR and serial outputs.
- Integrated Ethernet and ZigBee support plus optional WiFi capability provides an ideal solution for new or existing homes.
- Replace all your other remotes and use simple on-screen navigation to control multi-room music, lighting, energy, A/V, temperature and more.

Control4® Home Controller HC-200
