# Lutron is Light Control

For over 50 years, Lutron light controls have created vibrant, sophisticated, romantic, and soothing light for millions of homeowners and with greater energy savings than thought possible.

With dimmers, sensors and electronically controlled shades for single rooms to whole homes, Lutron will bring a new dimension of ambiance, comfort, style and convenience to your home.

# The Colors and Styles of Lutron

When it comes to home décor, color sets the tone from relaxation to pure sophistication. Whether you choose bold shades, warm earth tones or versatile neutrals, the possibilities for color aren't limited to walls, furniture and flooring.

Lutron offers a wealth of inspiring color options available in a variety of gloss, matte, satin and metal, making it easy to select the perfect keypad, dimmer, wallplate or receptacle to accessorize any space.

# Sustainable Solutions Without Sacrifice

Lutron light controls save energy while creating inviting, comfortable spaces. Lutron dimming reduces energy consumption with a technology invented by our founder, Joel Spira, in 1959. This dimming technology also extends the life of light bulbs, meaning fewer are going into landfills.

Lutron shading solutions reduce heating and cooling costs and now take green even further with our line of sustainable and 100% recycled shade fabrics.

Learn more at [www.lutron.com/energy](http://www.lutron.com/energy).

Dimming the lights	Saves electricity	Bulbs last on average	Annual savings*
10%	10%	2–3 years	\$9.70
25%	20%	3–6 years	\$17.30
50%	40%	10+ years	\$30.00

\* Actual savings may vary depending on use and application. Stated savings based on dimming (4) 75W incandescent reflector lamps (rated at 1500 hrs each, costing \$1.75 per lamp or 3000 hour halogen bulbs costing \$3.35 per lamp) by 50% (perceived light level corresponding to 40% reduction in power level) for 5 hrs per day with electricity cost of \$0.104/kWh. To calculate your own savings visit [www.lutron.com/energycalc](http://www.lutron.com/energycalc).

# Unparalleled Light Control Solutions

## Single Room Solutions

Single room solutions are standalone dimmers or shades that operate independent of one another or can be controlled together via the use of sensors or remote controls.

These solutions offer the simplest and lowest-cost way to improve ambiance, comfort, and safety while saving energy.

## Multiple Room Solutions

For more advanced and expandable light and shade control, use Lutron wired or wireless mini-systems.

These mini-systems can be easily expanded at any time to control multiple rooms or larger spaces and are suitable for both new construction and retrofit scenarios.

## Whole Home Solutions

Expand control across multiple rooms—up to an entire home—to maximize atmosphere, convenience, and energy efficiency.

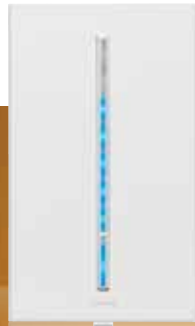

Our wired and wireless devices provide for flexible solutions that can be simply reconfigured, with no need for rewiring.

# Single Room Solutions

The way you use different rooms in your home is defined by the different ways each individual uses light in them. Single room solutions allow one to easily set light the way it is most beneficial while also saving energy.

Lutron single room solutions are available in a wide variety of colors, fabrics, and styles.

Lutron Roman Shade

# Multiple Room Solutions

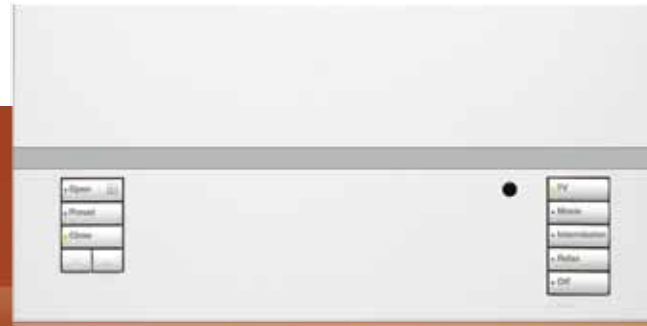

With open floor plans and an increase in indoor/outdoor living, light control solutions that bridge adjacent parts of the home create added ambiance, convenience and a “wow” factor that is hard to match.

Using Lutron keypads, energy-saving sensors, and shades you can create the perfect balance of daylight and electric light in your home with the touch of a single button.

Lutron multiple room solutions are available in a wide variety of colors, fabrics, and styles.

Lutron Venetian Blinds

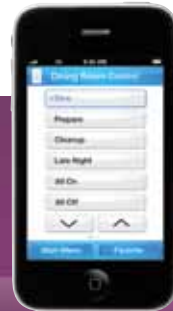

# Whole Home Solutions

For the ultimate in control, connect each part of your home to allow for total light and shade control throughout your home and property. And with whole home systems you can integrate your light control with your home's audio, security, temperature control, and energy monitoring systems.

Lutron whole home solutions are available in a wide variety of colors, fabrics, and styles.

# The Shades and Fabrics of Lutron

Daylight adds a comforting, refreshing quality to any room, and Lutron shading solutions offer an elegant way to silently control daylight and provide privacy. With the touch of a button, you can eliminate glare in your home theater, filter light in your kitchen at sunset, and effortlessly open and close hard to reach bathroom shades.

Lutron ensures you'll find the perfect fabric texture, translucence and color for any daylighting challenge within our Gallery Collection, Classico Collection, or new Avant Collection™. (Many Lutron shading solutions are also designed to accommodate customer's own material.)
