

CHERRINGTON BEACHCLEANERS MODEL 5000

**SELF-PROPELLED, ALL WHEEL DRIVE,
ZERO-TURN DESIGN FOR
SUPERIOR MANEUVERABILITY AND TRACTION**

The Cherrington Model 5000 offers high capacity and speed for large beach maintenance as well as the ability to clean quickly and efficiently around cabanas or trees.

Cherrington's exclusive Lift and Screen system provides you with the most effective precision beachcleaning available.

Cherrington's Lift and Screen System = Results

Trash, stones, shells, sticks, and seaweed - everything larger than the screen hole size are screened out and collected into the Cherrington Model 5000's 1 cubic yard hopper for easy dumping.
