

PowerBoss®
The Power of Clean

Collector 26
Walk-Behind Manual Sweeper

The Collector 26 is an ideal replacement for manual sweeping. This walk-behind sweeper picks up dirt quickly without leaving dust behind and works up to ten times faster than manual sweeping with a dustpan and brush. The Collector 26 is a durable workhorse, ideal for use in machine shops, stockrooms, parks, small yards, parking areas and loading ramps. It is lightweight and convenient, yet virtually indestructible. A shock-proof steel frame, sturdy aluminum housing, and strong synthetic hopper make the Collector 26 great for use in industrial environments.

Effortless: Stairs and curbs can be climbed easily due to the large rear wheels.

Compact: Fits through any standard door and can be used inside and outside.

Ergonomic: Optimum position of the handle allows the operator to use the position that is most comfortable. The handle can be easily switched around.

The side broom sweeps dirt out of corners, directly into the path of the wide main broom and then into the large dirt hopper.

BLUE PowerBoss is proud to be BLUE!
What does it mean to be BLUE?

Specifications:

Sweeping width:

with side brush	26 in (670mm)
without side brush	19 in (480mm)

Coverage:

area per hr	24,757sq ft (2,300sq m)
-------------	-------------------------

Dimensions with side brush:

width	31 in (790mm)
length	52 in (1330mm)
height (with handle)	35 in (900mm)

- **Water Conservation** – Aqua-Stop saves water usage by 50%, water is released through a pump system providing greater control of water usage than gravity systems
- **Clean Air** - High-performance filter system dramatically reduces the release of dust and debris back into the air, dust vacuum ensures that dust is put directly into the hopper, bristle pattern on main broom increases dust control
- **Lower Emissions** – All gas and LP engines meet Tier 2 specifications, catalyst mufflers, battery operated available, diesel operated available, bio-diesel fuel can be used in Kubota engine
- **Safer Work Environment** – Orange machines are highly visible to others in the workplace, simple controls reduce operator error, one-button scrub, horn, fire in hopper indicator, effective braking system, "belly bar" prevents operator from being pinned behind machine when in reverse, parabolic squeegee picks up all water leaving the scrub path virtually dry for traffic, seat equipped with safety shut-off switch, also available: overhead guard, back-up alarm, warning beacon
- **Clean Energy** – Battery operated available, bio-diesel fuel can be used in Kubota engines
- **Lower Chemical Reliance** – Aqua-Stop saves chemical usage by 50%, pump system for water and chemical release allows for better control of chemical usage, chemical metering system is available as an option and regulates chemical usage to the correct dose

Features listed are general for PowerBoss equipment; each machine has different features and therefore, may or may not fill all of the features listed above.
