Formulated for use with POWERBOSS equipment and beyond.

# HEAVY-DUTY DEGREASER

**POWERBOSS HEAVY DUTY DEGREASER** is a heavy-duty, low-foaming degreaser formulated to attack grease and grime. It is recommended for cleaning concrete floors and other areas where heavy-duty degreasing is required.

- Spontaneously emulsifies oily soil - works fast; effective in all PowerBoss automatic scrubbers.
- Contains NO solvents - safer for workers and the environment
- Innovative formula - produces better cleaning while saving time and labor
- Low Foaming Degreaser. Any foam that is generated in recovery tanks will break quickly, so it will not build-up.
- Meets USDA Performance Standards for A-1 type products.

*Use only on surfaces resistant to alkaline cleaners. Aluminum, floor finish and other sensitive surfaces may be adversely affected.*

## Powerbulk System

PowerBulk is a unique system of highly soluble super concentrated matched liquid components. When mixed with local water, these components produce full strength Heavy Duty Degreaser.
