# Screen Clean with a Cherrington

Whether on dry beach or several feet out in shallow water, the Cherrington screens your beach clean.

Available in several models - tractor and self-propelled; highlift or ground dump.

Interchangeable screens allow you to select the screen size appropriate for the job at hand.

## Rocks in the Hopper - Sand on the Beach!

[www.cherrington.net](http://www.cherrington.net)

Stones, rocks, shells and debris are all carried up into the hopper while the sifted sand is returned to your beach.
