

Mastery-dL® Tire Mark & Adhesive Remover

PowerBoss®

MASTERY-dL is a solvent based cleaner with the power of natural d-Limonene removing stubborn materials that other cleaners can not. Mastery contains 70% d-Limonene (citrus solvent). Use Mastery-dL to clean concrete, metal and other solvent resistant surfaces and objects. It can be applied with a mop, brush, sponge, trigger or pump-up sprayer or by soaking.

Mastery is especially effective against: Tar, Asphalt, Adhesives, Cut-Back Adhesive, Oil, Grease, Chewing Gum and Rubber Tire Marks.

Removes Rubber Tire Marks

Apply Mastery dL to rubber tire marks with a trigger or pump-up sprayer at full-strength. Let sit for a few minutes and then agitate with brush, floor machine or double scrub with an autoscrubber. Scrub floor with a solution of Formula 340 and pick up spent solution.

Adhesive Removal

For removing tile glued down using asphalt cut-back adhesive (black color), Mastery-dL will dissolve the adhesive for quick removal. Use at full strength.

Water Rinsable & Dilutable

Mastery-dL contains emulsifiers allowing it to be rinsed off surfaces with plain water. Dilute with water for cleaning a variety of surfaces, simply add it to water at 4 to 32 ounces per gallon, it will form a stable cleaning emulsion.

NOTE: Mastery dL is a strong solvent and will attack many plastics and swell rubber. Test before use. It should not be used in the solution tank of automatic scrubbers. As with other solvent cleaners, rubber gloves should be worn when working by hand and breathing spray mist should be avoided.

MASTERY-dL contains d-Limonene, a natural solvent from citrus peel oil.

Properties

Appearance	Amber liquid, citrus odor
pH	10.2 ± .2
Specific Gravity	0.89
Flashpoint	>120°F
Viscosity	Low
Dilution	Heavy soil: straight Medium soil: 12 oz./gal. of water Light soil: 2 oz./gal. of water.
Solvency	Excellent
Rinseability	Very good
Phosphate Builders	None
Chlorinated Solvents	None
Petroleum Distillates	None
USDA	C-1
Storage Stability	Store between 45° and 100°F.
Freeze/Thaw Stability	Freezes below 20°F. If chilled or frozen thaw, stir well and inspect for damage.

Packaging

55 gallon 906977
1 gallon 906973
