The Mystic Washer® 'hotbox' water heater provides an effective hot water solution where needed.

With the Mystic Washer, many users who have been accustomed to using hot water washers find that cold water does an acceptable job. However, for those who need a hot water system, we provide an effective – and cost-effective – water heating unit.

The Mystic Washer® Portable Hotbox heats water as fast as it's needed.

Standard features include:

- Rugged, powder-coated steel frame
- Super efficient schedule-80 coil with one-piece molded insulation combustion chamber
- Stainless steel coil wrap
- 9 gallon poly diesel fuel tank with fuel filter
- Reliable Beckett burners
- Adjustable thermostat temperature control
- Safety pressure relief valve
- 35' cord with GFCI
- Pneumatic tires on portable models

The Hot Box is completely factory-assembled, tested in the USA, and delivered ready to operate.

Note: This 110-volt Hot Box model is designed to be used in conjunction with the Mystic Washer®. A generator that provides 110 volts 6000 watts or more is required to operate the Hot Box. You will need one that is outfitted with 4 outlets. These types of generators are widely available in your local area, including at Costco, Sam's Club and online at [Electric Generators Direct](#).
