for individual transport tasks.**

Electric Stand-Up Tow Tractor Hako-Sherpa 1500 ST

Hako-Sherpa 1500 ST

The stand-up tow tractor is extremely nimble and manoeuvrable.

Speedy mounting and dismounting as well as coupling and unhitching in commissioning area means additional time savings in your logistics chain.

An ideal transport platform for all branches, which do not commission goods in the upper warehouse area and where a fork lift truck is out of place.

Technical Data

Length: 1,040 mm

Width: 800 mm

Height: 1,310 mm

Turning radius: 980 mm

Weight, empty (with battery): 584 kg

Trailer load: max. 1,5 t

Drive: 24 V/2 parallel connection motor

Steering: impulse steering

Voltage: 24 V

Battery: 24 V/3 heavy duty 360 LD

Drive speed: max. 10 km/h

Steering: mechanical front axle shaft steering

Brake unit: electrical inverse current brake and electro-mechanical brake

Wheels, front (1 unit) solid rubber, Ø 260 x 95 mm

Wheels, rear (4 units) solid rubber, Ø 260 x 95 mm
